WORK EXPERIENCE

SafeHug LLC

2022 – Present

Web Systems Validation Specialist

Huntsville, AL

- Collaborated directly with the inventor of a patented medical safety device to validate that website functionality, performance characteristics, and system behavior consistently aligned with the invention's real-world safety intent
- Independently maintained and verified the reliability of a production web system, ensuring continued operability through updates, fixes, and routine validation checks
- Oversaw change management, identified emerging issues, and ensured security and stability through continuous monitoring and controlled updates

Tektonux LLC

May 2025 – Aug. 2025

Software Engineering Intern

Huntsville, AL

- Implemented user interfaces in TypeScript, CSS, and HTML by communicating directly with the design team to ensure accuracy at each stage of the development process
- Supported the design and execution of automated tests with Playwright to enable the validation of software behavior relative to visual designs
- Tested a terrain server using GeoTIFF DEMs and Cesium to verify that its functionality was replicable on new machines
- Drafted a user manual for a Cyber Dashboard to communicate system behavior clearly to end users
- Composed documentation for unit tests in C#, end-to-end tests, and Storybook to allow new developers to locate, understand, and employ tests efficiently
- Supplemented company onboarding documentation to support consistency and reliability in development practices
- Adapted to a professional team environment by incorporating feedback and contributing to cross-functional validation efforts

Ms. D's Sweet Potato Cakes

Dec. 2022

Web Systems Validation Specialist

Dallas, TX

- Rapidly validated and deployed a customer-facing web system under strict time constraints, enabling immediate business exposure and revenue impact
- Collaborated closely with a business owner in a fast-paced environment to test and confirm system behavior, usability, and visual correctness prior to release

EDUCATION

University of Alabama in Huntsville

Bachelor of Science in Computer Science

Huntsville, AL

- Summa Cum Laude
- Minor: Mathematical Sciences
- Concentration: Artificial Intelligence and Data Science

Calhoun Community College

Associate of Science in Computer Science

Decatur, AL

- Summa Cum Laude; Top Ten Student Award

Calhoun Community College

Major: Short-Term Certificate in Programming Essentials

Decatur, AL

- Distinction

Calhoun Community College

Major: Short-Term Certificate in Computer Science Essentials

Decatur, AL

- Distinction

PROJECTS

[Machine Learning Projects](#)

- Designed and executed validation experiments for regression and classification models using accuracy, precision, and error metrics
- Analyzed model behavior and failure modes using diagnostic plots and performance comparisons
- Authored formal documentation explaining methodology, results, and limitations

[UX Project](#)

- Conducted structured usability validation with real participants
- Synthesized qualitative and quantitative results into actionable findings

CERTIFICATIONS, SKILLS & TECHNOLOGIES

- **Certifications:** Certified Microsoft Office Specialist
- **Skills:** Requirements Validation; Experimental Design; Metrics and Evaluation; Verification and Validation (V&V); Python; C++; C#; Java; TypeScript; HTML; CSS; Technical Documentation; Test Documentation
- **Technologies:** Playwright; GeoTIFF DEMs; Cesium
